ZEISS Smart Services Dashboard

Monitor and analyze machine data in real-time

Overview and comparison of the wide range of functions of ZEISS Smart Services Dashboard PLUS compared to the ZEISS Smart Services Dashboard FREE version.

Main features	ZEISS Smart Services Dashboard FREE Real-time monitoring of each ZEISS device	ZEISS Smart Services Dashboard PLUS Real-time monitoring and analysis of all ZEISS machines devices
Analyses over Time – Utilization	Data evaluation of the last 24 hours or 7 days for one measuring system	Unlimited and customized data evaluation of one or more measuring systems or of a complete machine park for comparison of the devices
Analyses over Time – Collisions	Data evaluation of the last 24 hours or 7 days for one measuring system	Unlimited and customized data evaluation of one or more measuring systems or of a complete machine park for comparison of the devices
Analyzes According to Shifts utilizations, collisions, measurement plans and measurements	Data evaluation of one shift only	Data evaluation of customized shift settings
Data Export	Not possible	Data export as .csv file for: utilization, usage, collisions, measurement plans and temperatures
Machine Usage current measurement plan, utilization, machine usage per day, usage protocol	Data evaluation of the last 24 hours or 7 days	Unlimited and customized data specifications
Measurement Capability Temperature monitoring: workpiece, pinhole and CPU	Data evaluation of the last 24 hours or 7 days	Unlimited and customized data specifications
Measurement Capability Collision monitoring: 2D and 3D displays	Data evaluation of the last 24 hours or 7 days	Unlimited and customized data specifications
Operating Data	Data evaluation of the last 24 hours or 7 days	Unlimited and customized data specification:
Machine Logbook	Unlimited availability	Unlimited availability
General Machine Data	Unlimited availability	Unlimited availability
